About Me

Hi! I'm Pavel, a 22-year-old master's graduate from National University "Odessa Polytechnic". I'm passionate about technology, enjoy solving complex problems, and constantly strive to expand my skills.

I developed an interest in QA during my studies, and for the past two months, I have been actively learning the fundamentals of software testing. I am familiar with **Jira** and key testing processes. I am eager to gain hands-on experience, deepen my knowledge, and start a career in QA. I am ready to learn, work in a team, and grow professionally.

English proficiency: B2 – confident reading and comprehension of technical documentation, B1 – conversational level for workplace communication.

Skills

- Basic knowledge of software testing principles
- Understanding of SDLC and Agile methodologies
- Attention to detail and problem-solving skills
- Ability to work in a team and manage time effectively

Hobbies

I enjoy playing games of all genres and types. Throughout my gaming experience, I often come across **bugs**. Over time, I've developed the ability to identify bugs and assess their priority. I realize that encountering a bug as a customer in a final product highlights the importance and usefulness of the **QA profession**. This has inspired me to study a career in testing, as I understand how essential it is to ensure a good user experience.

Education

National University "Odessa Polytechnic" – Master's Degree
September 2019 – December 2024
